

COMPANY/CAPABILITY OVERVIEW

Excellence in Electronic Systems & Components

Established in 1984 in Sydney, Australia, Braemac has specialised in Electronic Components, Systems and Services to continually provide quality solutions for our clients through:

Numerous Industries – Defence, Medical, Aviation, Agriculture, Gaming, IoT, Broadcast, White Goods, Mining, Rail, Industrial, Security, Telecoms, Utilities, Lighting, Consumer, Transport.

Applications – Power (Board, Rack Systems, Wall Adapters, UPS, PDU, Custom), **Compute** (MCU, CPU's, Rugged PC's, Industrial PC's, Panel PC's, Tablets), **Storage** (Flash, RAM, SSD, SO-DIMM, SD/MicroSD Card, CF Fast), **Wireless** (Cellular, Bluetooth, Wi-Fi, LoRA, Satellite), **Cable Assembly** (Custom Cables for all industries), **Components** (FPGA, MCU, RF, Power, Timing, Memory, Connectors, covering your full PCB design requirements)

Manufacturing – We support our customers from a simple sub-assembly to full turnkey manufacturing and assembly, as well as custom design services.

CAPABILITY

No Project is Too Large or Small

Braemac welcomes all projects and opportunities and provides a level of service and support unsurpassed in the industry.

Application Support: 60+ Sales and Field Application Engineers across the region.

Customization: Large pool of Internal Engineers, Partners and Suppliers to help you with any unique requirement.

Product Knowledge: Weekly product enhancement training, Braemac staff are always learning about the latest products and advancements for customers to leverage.

Logistics Support: With almost 3 decades of experience, Braemac can tailor a logistics program to suit your business.

Results: Braemac is committed to the local industry, ensuring results and outcomes for customers are met to make them successful.

COMPETITIVE ADVANTAGE

Why Braemac?

Braemac has 36 years of experience and ongoing commitment to quality, service and support sees us best placed for Electronic Component and System requirements. We offer:

Industry & Product Know How – Leverage one of our 10+ Field Application Engineers to help with R&D requirements.

Customisation – Custom product is a Braemac Specialty. Combining Braemac Engineers and hand-picked partners nothing is out of reach.

End-to-End – While Braemac help at the beginning and through a design phase with strong technical advice and support, the inclusion of National Instruments (NI) as a strategic partner means Braemac can also help with Product Test and Validation.

Highly Trained Personnel – From the Factory (making cable assemblies, Sub-Assemblies) to Technical FAE's (Supporting Customers) our people are highly skilled.
